

# Managing Used Batteries for Recycling

The **Dry Cell Battery Recycling Pails** are a convenient means to manage many types of batteries used in consumer electronic devices.

## Three Size Options:

**0.5**  
gallon

**1.0**  
gallon

**3.5**  
gallon

### Example Devices:

- ▶ flashlight
- ▶ cameras
- ▶ wireless mouse/keyboard
- ▶ calculators
- ▶ phones
- ▶ power tools
- ▶ rechargeable appliances

### Batteries come in all different sizes:

- ▶ AAA
- ▶ AA
- ▶ C
- ▶ D
- ▶ 9-volt
- ▶ button-cell batteries

### Different electrochemical makeup within the batteries:

- ▶ alkaline
- ▶ carbon-zinc
- ▶ NICAD (nickel cadmium)
- ▶ NIMH (nickel metal hydride)
- ▶ silver oxide
- ▶ mercury

Sharps Compliance's **Dry Cell Battery Recycling Pails** are convenient, environmentally responsible, and compliant. These solutions meet most state requirements for universal waste management.
